CAPELLA UNIVERSITY

Competency-Based Education (CBE)

An educational approach focused on outcomes of learning and based on a predetermined set of knowledge, skills, and abilities that the student is expected to accomplish.

Direct Assessment

An instructional program that, in lieu of credit hours or clock hours as a measure of student learning, utilizes direct assessment of student learning, or recognizes the direct assessment of student learning by others.

LEARNER CENTRIC APPROACH

Professionally-Aligned Curriculum

Our competency-based curriculum is professionally aligned, incorporates both theory and practice, and is designed around the measurable skills, knowledge, and abilities a learner will learn in their degree program.

Our courses are highly interactive. The learner will participate in weekly discussions with their instructor and classmates as well as receive ongoing feedback about their progress.

Our Faculty: Scholars & Practitioners

As experienced leaders in their fields, our faculty deeply understands the foundational theory behind the learner's coursework, the needs of their profession, and where it's headed next.

Real-World Assignments

Faculty carefully measure the learner's mastery of competencies based on real-world assignments, such as reviewing case studies or creating presentations.

Our Student-Centered Approach

Competency-based learning is the most direct path to the skills and knowledge the learner needs to be successful in their career.

FACULTY AT OUR CORE

1 FlexPath Faculty

- Focus on assessment and evaluation
- Emphasis on substantive feedback to learners
- Schedule that allows for 24 - 48 hour turnaround on assessments
- Close relationship with coaches and tutors

2 Tutoring Faculty

- Content experts
- Assigned to each course
- Roles filled by Capella doctoral learners
- Close relationship with coaches and faculty

3 Coaching Faculty

- 1:1 coach to learners
- Focus on learner progress and holding them accountable
- A proactive coaching relationship
- Close relationship with faculty and tutors
